

Customer Service and Support Procedures

1. Service Request Handling

All service requests must be acknowledged within 4 hours. Resolution targets vary by request type. Repair requests should be resolved within 72 hours. Open requests exceeding 7 days require escalation.

2. Response Time Expectations

The maximum allowable response time for customer inquiries is 48 hours. Delays must be communicated proactively. Exceeding response standards will be tracked and reviewed monthly.

3. Customer Feedback Management

Feedback must be logged and reviewed weekly. Negative feedback triggers a follow-up within 24 hours. Trends in complaints require monthly reporting and corrective action.

4. Service Quality Standards

Service delivery must meet defined quality metrics including accuracy, professionalism, and timeliness. Minimum customer satisfaction rating target is 85 percent.

5. Escalation Pathways

Escalation procedures must be followed for unresolved issues after 48 hours. Contact hierarchy includes frontline support, supervisors, and managers. Documentation of escalations is mandatory.
